POLICY: 5.1.11. (IV.M. & II.A.2.f.v)

Live Work Projects

Revised: May 5, 2016; December 6, 2007
Last Reviewed: May 5, 2016
Adopted: December 6, 2007

POLICY:

Certain occupational areas require specific skills or competency mastery that can best be obtained or demonstrated in a laboratory environment with real items or projects. A laboratory environment introduces the "customer dimension" into personal service occupations such as cosmetology and provides real-world working conditions to such industrial and technical occupations as auto mechanics, auto body repair, welding, building construction and others. Instructional Live Work Projects, when carefully managed and controlled, provide a needed dimension to laboratory learning for certain occupations as a planned and integrated component of the curriculum.
