

Instructor Recertification- 2021

I hope this letter finds you healthy and coping well with this unusual year. This is a reminder that 2021 is an instructor recertification year. Two years goes by fast! To meet requirements for recertification, you must have:

- taught 4 courses in the two-year period which is July 1, 2019 – June 30, 2021, and
- must have been monitored teaching a course by a qualified Training Center Faculty, and
- attend a recertification class.

Note: If you are a BLS Instructor, at least one of the 4 classes you have taught must be a BLS course.

Need to be Monitored?

Please contact a **Training Center Faculty** member to monitor one of your upcoming classes. Their contact information can be found at <https://www.augustatech.edu/community-and-business/american-heart-association.cms>

If you do not have any classes scheduled and need to be monitored, you may sign-up to teach at one of our regularly scheduled classes at <https://www.augustatech.edu/community-and-business/american-heart-association.cms>. You will NOT need to pay for the class if you are being monitored.

Registering for your Instructor Recertification Class

All instructors must attend an Instructor Recertification Class in early 2021. You must REGISTER for your Recertification Class due to safety precautions we are taking as a result of COVID-19.
