

1. Open settings, then go to Wi-Fi.

2. Make sure the Wi-fi toggle is on, then tap “ATC-SECURE”

3. In the “Join ATC-SECURE” pop up, enter your username, and password.

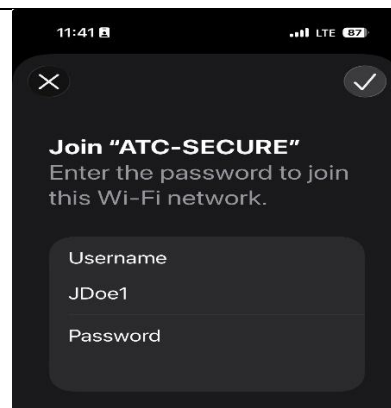

Your username is everything BEFORE the @ symbol in your email.

Example: If your email is Jdoe1@smartweb.augustatech.edu

or Jdoe1@augustatech.edu

Your username is: Jdoe1

Your password will be the same password as your Augusta Technical College login.

4. If you get a certificate screen for cppm.augustatech.edu showing the certificate as “Not Trusted” tap “Trust” in the top right corner.

Note: This is expected when connecting to ATC-SECURE for the first time.
